

Dear UPK Families:

We want to begin by extending my deepest thanks for your resilience, flexibility and patience as together we have confronted the unprecedented challenges that have emerged from the global COVID-19 pandemic.

As you know, the Governor recently announced that schools cannot reopen this school year. For those UPK families enrolled in the Albany City collaborative UPK classroom, this includes your child's classroom. While Children's Place at the Plaza may reopen before the end of the school year, we regret to inform you that your child may not attend until the school year is completed.

We hoped that we would be able to offer you enrollment into our program, at our full time tuition rate, but have been told that it's impossible. We're disappointed, too, but wanted you to have the information as soon as possible.

We will continue with virtual lessons, and sending weekly activities.

Stay well,
Denise & Tara
